Autumn/Winter 2016/17

Captured by Uwe Hauth®

### **From the great outdoors**

In 1983 East German Bernd Exner wanted to climb the Romanian Fagaras Mountains. Alone. During the winter. He couldn't find a sleeping bag that would keep him warm enough to survive. So he and his wife made one.

Yeti is rooted in the rough outdoors. Since 1983 we have created apparel and sleeping bags for expeditions and extreme conditions. Therefore a Yeti is durable, yet light, warm, yet non-constricting, functional, yet fashionable.

Since 2005 Yeti has been Danish owned, but our goal is still to create the ultimate down equipment. Ultimate whether you need to stay warm in the polar desert or keep cool in the urban jungle – and we continually strive for breaking new barriers...

### **Ganz weit draussen**

1983 plante der ostdeutsche Bergsteiger Bernd Exner das rumänische Fagaras Gebirge zu besteigen. Allein. Mitten im Winter.

Es gab keine Möglichkeit, einen Schlafsack zu kaufen, der ihn warm genug gehalten hätte, um nicht zu erfrieren. Also schneiderten er und seine Frau einen eigenen.

Yeti's Wurzeln liegen in der rauhesten Natur. Seit 1983 fertigen wir Bekleidung und Schlafsäcke für Expeditionen und extreme Wetterbedingungen. Daher sind Yeti Produkte immer widerstandsfähig, aber leicht. Sehr warm, aber nicht einengend. Funktional, und trotzdem modisch.

Seit 2005 gehört Yeti zu einer dänischen Outdoorgruppe, aber an unserem Anspruch, die ultimative Daunenprodukte zu entwickeln, hat sich nichts geändert.

Egal ob man es warm in der Eiswüste oder cool im urbanen Dschungel haben will. Und wir sind weiter auf der Suche nach neuen Herausforderungen...
