

Unique, hi-performance and durable products for all types of snow conditions and preferences.

The freeski range includes skis for jumps, jibbs, backcountry and all-mountain freestyle. We have chosen one model per category and calibrated it to deliver the most technical and accurate product.

We've been working on the profiles, flexes, widths and the overall technical details to deliver products that will transform the mountains into a natural freeski playground.

## crowbar

**All-rounders for the park, slope and backcountry.**

Precise/Responsive/Pro

Crowbar is a true twin shape with front auto rocker. Perfect whatever you ride, switch or regular. Camber supports instant grip, ultra fast response, and cushions the impact of big air landings.

Carbon-kevlar stringers give you an increased tip-to-tail pop and response. Special 2,5mm steel impact edges will easily endure intense rail sessions. Long life flex, power, precision, extra pop and an extremely fast and durable base.

**construction:** semi-hybrid  
(camber / front auto rocker)

**shape:** true twin tip  
**flex:** twin  
**flex ratio:** 7  
**fiberglass:** biax / triax  
**core:** tip-to-tail wood core (poplar and ash)  
**base:** fast base IS7200

**sizes:** 162cm, 169cm, 175cm, 181cm  
**sidecut:** 117-86-117  
**radius:** 17,0m; 18,6m; 20,3m; 21,9m

**extras:** carbon / kevlar stringer, protective gum zones, durable sturdy corrund topsheet

**designed for:**  
**freestyle - park&pipe**

## vandal 3.0

**All-terrain skis.**

Adventurous/Versatile/Playful

Playful/All-round/Relaxed

Vandal 3.0 gives you the feel of wood core, versatility, soft flex and enhanced camber abilities. They are wide, true twin tips with extra sidecut. Re-designed hybrid construction featuring new camber-rocker line and tip&tails profiles.

While camber supports edge-hold, control and cushions the impact of flat landings, rocker improves the float and allows for an effortless all-terrain ride even in deeper snow. Buttering and pillows shredding have never been easier. Imagine mountains as a natural snow park.

**construction:** hybrid  
(rocker / camber / rocker)

**shape:** directional twin tip  
**flex:** directional  
**flex ratio:** 5  
**fiberglass:** triax+biax  
**core:** tip-to-tail wood core (poplar and ash)  
**base:** fast base IS7200

**sizes:** 160cm, 165cm, 170cm, 175cm, 180cm  
**sidecut:** 130-92-130mm  
**radius:** 17,0m; 18,6m; 20,3m; 21,9m

**extras:** carbon / kevlar stringer, protective gum zones, durable sturdy corrund topsheet

**designed for:**  
**all terrain, backcountry**

## rogue

**The perfect all-terrain ski.**

Classic/Versatile/All-round

New

Rogue are 100mm-underfoot all-terrain skis designed especially for those who are seeking adventures. Hybrid construction enables effortless rides in any snow conditions. While rocker supports better float in powder, camber increases responsiveness, makes landings smoother and edge grip more secure.

Semi hybrid construction and the 150mm/5mm early rise at the tips enable top performance on hard packed snow without compromising your terrain rides.

Get ready to experience the true feel and flex of tip to tail wood core, the snappy camber suspension and directional twin-tip shape. Easy to handle and fast to respond, the Dirty Bear lets you flourish wherever you roam.

**construction:** semi hybrid  
(camber / front rocker)

**shape:** directional twin tip  
**flex:** directional  
**flex ratio:** 6  
**fiberglass:** triax+biax  
**rocker type:** classic 200mm (162) and elliptical 240mm (170/178/186cm) (tips & tails)  
**core:** tip-to-tail woodcore (poplar and ash)  
**base:** fast base IS7200

**sizes:** 169m, 175cm, 182cm, 189cm  
**sidecut:** 134-99-124mm  
**radius:** 19,0m; 20,3m; 22,2m; 24,2m

**extras:** durable sturdy corrund top sheet

**designed for:**  
**all-terrain**

## dirty bear

**The perfect all-terrain ski.**

Classic/Versatile/All-round

New

Dirty Bear is our most versatile and classic ski that combines the best of freeride and freestyle.

Semi hybrid construction and the 150mm/5mm early rise at the tips enable top performance on hard packed snow without compromising your terrain rides.

Get ready to experience the true feel and flex of tip to tail wood core, the snappy camber suspension and directional twin-tip shape. Easy to handle and fast to respond, the Dirty Bear lets you flourish wherever you roam.

**extras:** durable sturdy corrund top sheet

**designed for:**  
**backcountry, freeride**

## superior

**The top choice for backcountry powder action.**

Adventurous/Versatile/Agile

Superior are hybrid technology skis that deliver a perfect combo of float and all the benefits and ease of rocker design and the snappy suspension, and control of the camber.

Lively in powder and shock-absorbing in rough terrain or chewed-up conditions, the Superior is an absolute must-have for backcountry, deep powder and off-piste enthusiasts. Spin off the cliffs and kickers, blast from stash to stash, slash the wave - Superior skis are so versatile that they have all of this covered. There's a reason for their superiority, after all.

**construction:** hybrid  
(elliptical rocker / camber / elliptical rocker)

**shape:** directional twin tip  
**flex:** directional  
**flex ratio:** 7  
**fiberglass:** triax+biax  
**rocker type:** 240mm (tips & tails)  
**core:** tip-to-tail woodcore (poplar and ash)  
**base:** fast base IS7200

**sizes:** 178cm, 186cm, 194cm  
**sidecut:** 135-115-130mm  
**radius:** 20,0m; 23,0m; 26,0m

**extras:** durable sturdy corrund top sheet

**designed for:**  
**backcountry, freeride**
