

ORTLIEB VELOCITY

FULL-FEATURED MESSENGER STYLE DAYPACK

There's a right backpack for everyone! The courier style daypack Velocity is a favorite in the ORTLIEB collection. Now updated and features handy details such as a padded laptop sleeve, new sizes – smaller and larger – and a new PVC free version. Designed with the ORTLIEB Messenger Bag in mind, this compact backpack is the perfect choice for students, pupils or commuters, for every day, for school, for sports or work. Velocity is sturdy and waterproof. Its trademark, the foam ventilated back, ensures carrying comfort along with breathability. Both the foam back and the ergonomic shoulder straps are improved for increased carrying comfort. The waist strap is adjustable or can be easily removed.

Easy access roll top closure with hook and loop guarantees 100% waterproofness and makes packing speedy and simply. In case the hook and loop fastener wears out after years of intensive use, simply return your pack to our ORTLIEB customer service and we will give your Velocity a second life. All components can be easily exchanged or repaired which makes Velocity a sustainable and lifelong companion. What's new on the inside? Velocity now features an internal zippered organizer and a padded laptop sleeve fixed at the base and top taking computers (max. 15.4") and keeping them safe and dry.

The key innovation, however, are the additional sizes: Our family of Velocity's starts with the smallest 17 liter pack for urban everyday use. The medium size 23 Liter for sport, for work or leisure, and the new head of the family offers 29 liters with a zippered front pocket, it easily swallows up uni, daily life and sports equipment with ease. There's a right backpack for everyone and you can choose the perfect model to meet your requirements. If you want to do without the conventional tarp looks, Velocity PS is now available in a sustainable PVC free material and you can go with the new PU coated nylon fabric (17 and 23 liter).

The lower edge protectors resist abrasion and wear. A bike light or helmet can be fixed to the back. As all ORTLIEB products, Velocity is sustainably made in Germany.
