

HALTI COLLECTION – NORDIC BY NATURE

We at Halti believe that the best outdoor apparel and equipment combine style, usability and functionality. With these three things in mind, we have designed a collection that respects and is inspired by nature. Nordic aesthetics, clear design and durable high-quality materials form the base for the Halti design.

Our brand exists to connect people with nature, and we put great focus on our corporate social responsibility. We take care of both people and nature and we take responsibility for our social, environmental and financial footprint. We think ahead! *

Halti Collection highlights

Halti has a long tradition in alpine ski clothing and strong know-how in designing technical skiwear in cooperation with professional alpine skiers and in partnership with FIS (International Ski Federation). **The Skiwear line** has now been modernized and expanded and the traditional alpine skiing apparel has been complemented with **All Mountain** products that are suitable for off-piste slopes.

The Halti Legenda skiwear line is the culmination of many years of experience with ski teams and other ski professionals.

The Legenda jacket and pants have cutting edge details and clean design create long lasting products both design and technology-wise for the demanding consumer. Waterproof and breathable 4-way stretch outer material is Bionic-Finish Eco, featuring fluorocarbon-free water repellent treatment. The front and back panel of the jacket have a special breathable construction system. The material is bluesign® approved and Legenda products are therefore part of Halti's Think Ahead category of sustainable products. The Legenda line consists of Legenda M jacket and pants for men and Legenda W jacket and pants for ladies.

* Think Ahead covers the product range with most advanced ecological and sustainable features.

All Mountain products are designed for active skier who value the outdoors and seek peak moments on- and off piste, even in harsh conditions. Kiinto jacket is a freeride inspired 3-layer shell skiing jacket with slightly longer regular fit and unique wax-patterned material surface. Equipped with fixed helmet compatible hood. Hossa pants match the jacket with relaxed fit and more straight cut leg.

The Outdoor collection is based on Halti's strong 40 years' experience of how to survive in extreme and varying conditions.

Our outdoor products are the best examples of timeless and durable design that has everything necessary and nothing unnecessary.

Kaakko jacket is made without compromises. The classic style made with minimalistic design is equipped with all key technical features such as articulated cut, extra long angled ventilation zips, detachable snowgaiter and extended back panel. The style is our most versatile three-layer outdoor jacket for varying conditions. The lightweight Kaakko jacket is part of Halti's Think Ahead category of sustainable products featuring fluorocarbon-free water repellent treatment.

Active Lifestyle brings nature closer to the city.

In this collection Halti's strong outdoor knowhow and clear Nordic design are nicely combined. The clothing, footwear and outdoor equipment are stylish in every weather everywhere. **Aalto W jacket** is a nice soft style that is great for city use. The jacket is made from ribstop material and the super light product belongs to the Halti Airlite series.

The products in the Multisport category have been developed for the needs of people who engage in diverse outdoor activities. The multisport products are suitable for cross-country skiing as well as for winter jogging, Nordic walking and other active sports. Halti is the proud partner of the Canadian Biathlon team.

Halti's hybrid multisport **Olos** product line is delivering thermal management together with freedom of movement. Perfect combination of warm padded panels together with technical Stormwall® softshell material creates an ideal mix of warmth and technicality for warm-up and training with light speed and in cold weather conditions. Olos M jacket is our next generation hybrid jacket that is perfect for warming-up and training with light speed. Seasonal lightning pattern at upper body adds on trend touch and 360-degree reflectivity provided visibility even in very low light conditions.

Welcome to meet our team and see the new collection! You will find **Halti at Hall A2, stand 110.**

Halti is a Nordic outdoor company from Finland. We create premium outdoor, ski, multisport and lifestyle apparel and hardware with unmatched function, intelligence and nature inspired design to help you to find your own peak moment in the nature. We are for curious, active and demanding outdoor enthusiasts who value high functionality, best technical materials, perfect fit and beautiful minimalist Nordic design. Over the past 40 years our gear has been used in some of the most starkly beautiful and unforgiving places on Earth. We are one of the few companies that has equipped expeditions to all of "The three Poles" – The North Pole, The South Pole and Mount Everest. At Halti we're continuing this heritage by inspiring all people to experience nature at its best.
